## Work Experience

---

### **Registered Nurse (RN)**

National Taiwan university hospital - Taipei

October 2018 to March 2022

I worked in surgery suit for 3.5 years. I attended varies of surgeries such as: cardiovascular surgeries, open heart surgeries, neurological surgeries, spin surgeries, ENT surgeries, davinci robotic surgeries and thoracic surgeries. I was filly trained to be a circulating nurse and a scrub nurse.

National Taiwan university hospital is the best hospital in Taiwan. Many difficult cases were transferred to out hospital. So I got to see many rare surgeries and got the chance to learn from them. There are many excellent surgeons that I worked with and learn from. I love the working mode on surgery suit that everyone is paying their fully attention on one patient each time. I'm allowed to have enough time and concentration to take care of on patient at a time. And I enjoy being part of the surgery and enjoy helping the surgeons to make the whole surgery smooth and safe.
