

## **ASANTE DAVID NKANSAH**

Eastern part of Ghana/ [+233548212958/asantedavidnkansah@gmail.com](mailto:+233548212958/asantedavidnkansah@gmail.com)

### **CAREER SUMMARY**

I am a general registered nurse trained in Ghana West Africa. I hold a diploma certificate in nursing (general), completed in the year 2019 September 27<sup>th</sup>. Through the three (3) years of intensive training, I have worked under qualified staffs and in teaching hospitals as well as specialty hospitals across Ghana. I have also completed my one-year mandatory national service and with two (2) years working experience at both bedside and in the operating room. I am currently working as a Registered General Nurse (operating room) in Ghana at Presbyterian Hospital Agogo (with 350 bed capacity) located in the Asante Akim North District in the Ashanti region. I am fully certified and registered with the Nursing and Midwifery Council of Ghana.

### **SKILLS AND STRENGTH**

I always have a good interpersonal relationship with my clients as this facilitates holistic care, I am very good in assessing client physically and psychologically for their problems. Administration of various medications is no problem to me, this is because through my years of training and clinical practice, I have personally administered drugs to patients on so many occasions. Both IV, Orals, Topical, Pessary etc. this also means I understand the method of administering any of the afore mentioned group of drugs.

### **PERSONAL ACCOMPLISHMENT**

I have personally carried out successfully procedures like; intravenous cannulation (venipuncture) and administration of IV fluids, urethra catheterization, administration of drug by various route, education on condition, management of burns/ fracture/ hypoglycemia/hyperglycemia using both the albertis regimen or sliding scale and drugs, intake and output monitoring bed bath, mouth care, feeding of a helpless patient, bed making and many more.

I have also successfully carried out some midwifery procedures like, vaginal examination (VE), monitory of contractions in labour, monitoring fetal heart beat, plotting the parthograph, assisting in labour, suturing of episiotomy cut, neonatal essential care, assisting in neonatal resuscitation/management of birth asphyxia.

Again, I have also work at the pediatric ward as well as the neonatal intensive care units and there I personally managed pediatric and neonatal conditions such as, birth asphyxia, neonatal jaundice, asthma, anemia, pneumonia, burns, meningitis, tetanus etc.

I also have experience at the surgical ward in prepping patient for surgery, post op care as well as intra-op (as scrub nurse/circulating nurse).

As a general nurse, I have clinical experience in most of the various fields in healthcare with minor limitations in the specialty areas but more equipped at the medical and surgical department.

And lastly, I completed training with a **DISTINCTION** certificate and also **CREDIT** for medicine in my licensing exams. In Ghana, to get credit means a lot than pass.
