Work Experience

Outpatient Post-Acute Critical Care (PACU)

Northside Hospital - Atlanta, GA

September 2021 to Present

- Partnered with physicians, nurses, and medical specialists to ensure effective patient care and desired outcomes, while addressing the acute needs of post-operative patients, administer medications, and implement physician orders.
- Accurately documented all elements of nursing assessment, treatments, medications, discharge instructions, and follow-up care.
- Assessed, evaluated, and accurately recorded the client's post-sedation status and provides supportive care during the post-procedure phase.

Student Nurse at Phoebe Memorial Hospital

Albany State University - Albany, GA

August 2019 to May 2021

- Obtained vital signs, I & O's, documented data related to patients' care, including assessment results, interventions, medications, patient responses, or treatment changes.
- Shadowed Registered Nurse on unit and observed head-to-toe assessments, basic patient care, medication administration, blood draws, IV's, Foley catheters, and
