## Work Experience

---

### Mobile Vaccination Registered Nurse Site Lead

Zentech Consulting for client CDR Maguire Inc - SC

October 2021 to Present

- Site lead for traveling vaccine mobile missions throughout the entire state of SC
- Manages proper storage and handling of vaccines during transportation and throughout the mission
- Responsible for picking up and dropping off the van including all supplies needed for the missions
- Ensures proper registration of patients to ensure eligibility information along with information that will also be sent to the state
- Responsible for correct dosage and proper techniques of vaccines being given
- Supervises staff for entirety of vaccine mission answers questions that may arise
- Monitors patients after vaccination for possible adverse reactions and answers questions

### Covid-19 Case Investigator Team Lead

Recruiting Solutions for client Department of Health and Environmental Control - SC

September 2021 to April 2022

- Supervises a team of case investigators; prioritizing laboratory confirmed or probable cases of COVID-19 so they can be interviewed, and close contacts identified, to provide disease intervention activities to the positive case in the timeliest manner
- Ensures the team of case investigators is given direction when needed and to be available as a first line resource to give guidance and assistance when necessary
- Performs random QA checks of teams completed cases to ensure accuracy or information while protecting sensitive personal health information in accordance with HIPPA laws
- Discusses findings of random quality assurance checks with the case investigator to provide constructive feedback to help future investigations conducted by the CI

### Hemodialysis Floor Registered Nurse

DaVita - SC

October 2018 to September 2019

- Performed set up of the machine and patient areas following CDC/CMS requirements.
- Monitored and documented vital signs alongside team every 30 minutes, ensuring that any patient reactions were assessed and given any necessary interventions
- Followed and reinforced strict infection control guidelines
- Patient medications given during treatments, following physician prescription
- Assessed every patient prior to treatment initiation
- Worked on patient care plans and any unstable patient assessments as necessary
