

Professional Profile

I'm seeking a position as a travel nurse. My background as a Critical Care Nurse consists of Level 1 Trauma Center experience in a combined ICU of Surgical, Medical, Neurotrauma and Cardiac specialties. My skills as an ICU nurse has allowed me to cross over into other nursing disciplines. In the past, I have managed and trained in the Home Health Care (HHC) discipline with a focus on wound care management. I currently work in the PACU with ability to float to other units when needed. I do have charge experience and precept new graduate nurses in critical care. I have strong assessment skills with stroke and neurologically compromised patients and I'm a strong advocate for the patient. My experience includes but are not limited to

- Performing a broad scope of clinical procedures at the bedside with and without conscious sedation
- Bronchoscopy, paracentesis, emergent chest tube placement, transcutaneous pacing, and cardiac monitoring
- Non-invasive and invasive monitoring equipment
- ET-Co2, ICP, CVP, EKG, Ventilator/Defibrillator, EV 1000 Cardiac monitoring,
- Serving as a member of Code Blue/MET Code (Rapid Response) Team for entire hospital; serve as Float Pool staff for 90% of hospital.
- Identify and manage life-threatening post-operative and anesthetic complications such as aspiration, hypoventilation, apnea, acute hypotension, symptomatic arrhythmias, and multi-system organ failure.
- Phase 1 & 2 Post Anesthesia Care
