Work Experience

Registered Nurse

Friendly Village - Rhineland, WI

July 2007 to August 2016

Your Duties

- Administer local, inhalation, intravenous, or other anesthetics.
- Administer medications to patients and monitor patients for reactions or side effects.
- Assess the needs of individuals, families, or communities, including assessment of individuals' home or work environments, to identify potential health or safety problems.
- Conduct specified laboratory tests.
- Consult and coordinate with healthcare team members to assess, plan, implement, or evaluate patient care plans.
- Consult with institutions or associations regarding issues or concerns relevant to the practice and profession of nursing.
- Direct or coordinate infection control programs, advising or consulting with specified personnel about necessary precautions.
- Direct or supervise less-skilled nursing or healthcare personnel or supervise a particular unit.
- Instruct individuals, families, or other groups on topics such as health education, disease prevention, or childbirth and develop health improvement programs.
- Maintain accurate, detailed reports and records.
- Modify patient treatment plans as indicated by patients' responses and conditions.
- Monitor all aspects of patient care, including diet and physical activity.
- Monitor, record, and report symptoms or changes in patients' conditions.
- Observe nurses and visit patients to ensure proper nursing care.
- Order, interpret, and evaluate diagnostic tests to identify and assess patient's condition.
- Perform administrative or managerial functions, such as taking responsibility for a unit's staff, budget, planning, or long-range goals.
- Perform physical examinations, make tentative diagnoses, and treat patients en route to hospitals or at disaster site triage centers.
- Prepare patients for and assist with examinations or treatments.
- Prepare rooms, sterile instruments, equipment, or supplies and ensure that stock of supplies is maintained.
- Prescribe or recommend drugs, medical devices, or other forms of treatment, such as physical therapy, inhalation therapy, or related therapeutic procedures.
- Provide health care, first aid, immunizations, or assistance in convalescence or rehabilitation in locations such as schools, hospitals, or industry.
- Provide or arrange for training or instruction of auxiliary personnel or students.
- Record patients' medical information and vital signs.
- Refer students or patients to specialized health resources or community agencies furnishing assistance.

- Work with individuals, groups, or families to plan or implement programs designed to improve the overall health of communities.
