

Qualification Summary

With over six years of experience in a professional business and medical environment, I would be a great candidate to be a part of your health care team. I'm seeking an RN position. I am a detail oriented individual, a team player, a quick learner and I am flexible with change.

LVN Encompass Hospital

March 2020- October 2021

Work with a wide range of diagnoses, including stroke, spinal cord injury, neurological disorders, joint replacement, fractures, multiple trauma and cardiac/pulmonary conditions.

Provide direct care to patients; carry out their plans of care and observe their behavior, vital signs, symptoms, and responses to treatment.

RN San Antonio State Supported Living Facility

November 2021- May 2022

Work with patients that have intellectual disabilities. Work closely with an interdisciplinary healthcare team to assist patients in maintaining their health and quality of life. Maintain airway patency by providing appropriate tracheostomy care and suctioning. Supported nutrition by administering g-tube feedings/ medication administration

RN Northeast Baptist ER

May 2022- Present

Assume responsibility for assessing, planning, implementing direct clinical care to assigned patients on a per shift basis, and unit level. Responsible for supervision of staff to which appropriate care is delegated. high quality, safe and appropriate nursing care, competency of clinical staff, and appropriate resource management related to patient care.
