WORK HISTORY

02/2022 to Current **RN, ICU**

UofL Health Mary And Elizabeth Hospital – Louisville, KY

- Managed care from admission to discharge/transfer.
- Monitored patient condition by interpreting and tracking EKG readings, identifying irregular telemetry readings and updating team members on changes in stability or acuity.
- Advised patients and caregivers of proper wound management, discharge plan objectives, safe medication use and disease management.
- Collaborated with physicians to quickly assess patients and deliver appropriate treatment while managing rapidly changing conditions.
- Maintained quality care and comfort for patients with heart failure, pulmonary hypertension and other conditions.
- Participated in nursing simulation activities, evidence-based practice project implementation and competency development to further nursing education.
- Evaluated healthcare needs, goals for treatment and available resources of each patient and connected to optimal providers and care.
- Advocated for patients by communicating care preferences to practitioners, verifying interventions met treatment goals and identifying insurance coverage limitations.

- Organized and managed care of patients undergoing various therapies and procedures.
- Implemented medication and IV administration, catheter insertion and airway management.
- Provided exceptional care to high-acute patients needing complex care such as ventilator management, extensive wound care and rehabilitation.
- Secured controlled narcotics and distributed medication on schedule to meet patient needs and minimize misuse opportunities.
- Administered medications and treatment to patients and monitored responses while working with healthcare teams to adjust care plans.
- Administered medications via oral, IV and intramuscular injections and monitored responses.
- Provided direct patient care, stabilized patients and determined next course of action.
- Oversaw delivery of care for patients on medical-surgical unit, providing direct care, delegating nursing assignments, and supervising team comprised of nurses, LPNs, technicians and unit clerks.

11/2017 to 01/2022 **RN, Critical Care**

Nigerian-Turkish, Nizamiye Hospital – Abuja, Nigeria

- Led successful team comprised of RNs, LPNs and ancillary staff.
- Completed diagnostic tests and patient assessments to evaluate treatment progress.
- Administered medications to treat patients' symptoms and address underlying disease progression.
- Managed care from admission to discharge.
- Provided direct patient care, stabilized patients and determined next course of action.
- Educated patients, families and caregivers on diagnosis and prognosis, treatment options, disease process and management and lifestyle options.
- Implemented medication and IV administration, catheter insertion and airway management.
- Organized and managed care of patients undergoing various therapies and procedures.
- Managed needs of chronically ill and acute patients with well-coordinated treatment strategies.
- Secured controlled narcotics and distributed medication on schedule to meet patient needs and minimize misuse opportunities.
