I am very passionate about being an RN and previously a Paramedic. For the last 29 years, I have obtained an enormous amount of experience and knowledge necessary to give the absolute best care to my patients no matter what the setting or situation. I have given 110% to each and every patient that I have had the privilege of coming in contact with and caring for. I ultimately hope that I made a tremendous difference in their lives and in the lives of their loved ones by exhibiting a loving and caring nurse-patient relationship. I wouldn't trade my experience for anything. My goal is to continue making a difference as a healthcare professional throughout the rest of my career, but doing so as a "hands-on nurse"!

## JOB DUTIES:

Nursing/Paramedic Duties: Assess patients of all ages, medicate and treat patients per orders, then reassess patients after treatment, & document. Perform skills such as Insertion of IVs, Foley Catheters, NG tubes, administer oxygen as needed whether via NC or ventilator, draw blood, Cardiac monitoring, perform 12-lead EKG & treat, assess vital signs, collect urine and other specimens. Assist NPS/PAS/MDS with all ER procedures while maintaining the safety of my patient, myself, & co-workers. Complete documentation on computerized charting system (Meditech- several versions, vmware, Horizon HEC, EPIC, and Paragon, AlayaCare).

EMS Duties: Drive to the scene, assess for scene safety, assess and treat patient as per protocols, reassess after treatment. Assess & Perform Life Saving skills within my scope of practice by maintaining an open airway, assess breathing and circulation. Document all details. Above all: DO NO HARM.

Authorized to work in the US for any employer
