I have a lifetime of learning. My experience includes teaching of various ages and subjects with outdoor education oriented curriculum as well as a 4-H Youth Specialist with the MU Extension Division (listed further in resume). As a teacher, I wrote and implemented a grant with DESE to motivate students to take science electives in high school. I also wrote, conducted, and presented research of various agricultural field studies as well as writing and implementing a 2-year study with the MDC. All of this was followed by a traditional LPN and ultimately RN licensure. And I have thoroughly enjoyed all of it!

Work Experience

Registered Nurse

BAYADA Home Health Care - United States

June 2022 to Present

Home health visits with people having cerebral palsy, GT, SPC, and non verbal.
