Experience

RN Telemetry/PCU at Desert Regional Medical Center - Palm Springs, CA *08/2015 - Current*

Updated physicians on patient test results and assisted in developing care plans.

Performed blood and blood product transfusions and intravenous infusions to address patient symptoms or underlying causes.

Administered medications, tracked dosages and documented patient conditions.

Supervised nurse administration of oral, intramuscular and IV medications to patients as prescribed, monitoring responses for adverse reactions.

Treated patients suffering from chronic and acute asthma, seizure disorders and pneumonia. Prioritized nursing tasks and assignments and accurately reported patient status.

Acted as patient advocate and implemented total patient care through the team nursing process. Coordinated and managed care for patients undergoing myocardial infarction screening and anticoagulation therapies.

Maintained optimal ventilator settings and operations to meet patient care needs.

Advanced nursing competencies through participation in simulation exercises and practice improvement projects. Counseled caregivers and families on end-of-life planning and educated on patient care options. Conducted post-op reviews, tracked patients' vitals and monitored fluids to reach optimal care targets.

RN Supervisor at California Nursing and Rehabilitation Center - Palm Springs, CA
01/2014-03/2017

Monitored infection control and critical incidents and made changes and improvements to processes where necessary.

Collected lab specimens, ordering and interpreting diagnostic tests and lab results.

Prioritized nursing tasks and assignments and accurately reported patient status. Counseled patients and caregivers, providing emotional, psychological and spiritual support. Supervised ancillary staff of 10-12 employees, nurses by scheduling shifts, delegating assignments and monitoring quality of care.

Developed and maintained quality care systems and standards and implemented medical protocols and guidelines.

Reached out to patients to convey lab results and provide care instructions.
