### Experience

#### Memorial Ambulatory Surgery Center / Pre-Op/Pacu RN

July 2022 -Present, Houston, TX

Assess, instruct & prepare patients prior to surgery. Ensure that operative and informed consents are signed and correct. Take and record vital statistics of patients to ensure readiness for surgical procedure. Initiate IVs and ensure patients are informed about the procedure. Assess patients' post-operative condition. Monitor vital signs and other measurements of progress, meeting discharge criteria. Answer patient questions and ensure patient comfort. Monitor patients for condition changes, reporting any changes to physicians. Perform intervention duties during postoperative emergencies.

#### Hedwig Suites / Extended Recovery RN

March 2022- Present, Houston, TX

Assessing, planning, implementing, and evaluating patient care plans in consultation with specialized healthcare professionals. Evaluating medical information, as well as providing direct and individualized bedside nursing care to post-surgery patients. Preparing, administering and recording prescribed medications.

#### Matagorda Regional Hospital / Travel Med-Surg RN

March 2022 - July 2022, Bay City, TX

Administered prescribed medications, started intravenous fluids, and documented patients' charts by recording food and fluid intake and output. Answered patients' calls and determined how to assist them, as well provided family support. Measured and recorded patients' vital signs, such as height, weight, temperature, blood pressure, pulse, and respiration. Provided primary patient care and treatments, such as dressing wounds, treating bedsores, giving enemas, douches, and performing catheterizations. Collaborated daily with physicians and health care teams to achieve optimum patient care. Established strong relations with physicians built on trust and knowledge of patient care.

### **Novant Presbyterian Medical Center / Travel Med-Surg RN**

November 2021 - February 2022, Charlotte,NC

Assessing, planning, implementing, and evaluating patient care plans in consultation with healthcare professionals. Evaluating medical information, as well as providing direct and individualized bedside nursing care to pre-and post-surgery patients. Preparing, administering and recording prescribed medications. Changing dressings, inserting catheters, and starting IVs. Adjusting specialized medical equipment as needed, as well as interpreting and recording measurements. Collaborating on discharge planning with the healthcare team. Adhering to best nursing practices, standards, and protocols.

### **Memorial Hermann / Level I Trauma Med-Surg RN**

October 2020-November 2021, Houston,TX

Coordinates the planning for the delivery of nursing care with an interdisciplinary team and administers appropriate clinical decisions in the delivery of patient care. Collaborates with, directs, and may delegate to the healthcare team in the attainment of positive outcomes based on data, research, evidence, and professional standards of care. Coordinates treatment plans; develops/implements discharge and/or transfer plans. Participates in a systemic, interdisciplinary, and ongoing evaluation of programs, process improvement, and desired client-centered outcomes. Considers the diverse needs of each patient through the entire continuum of care, providing and ensuring the highest level of service according to established service standards, optimizing the patient experience. Administer medications via various routes per physicians orders.

### **MedExpress Urgent Care/LVN**

July 2019- August 2020, Houston,TX

Assessing urgent care patients' charts, prescribed medications, and test results upon arrival. Performing physical examinations as well as pre-employment screenings. Interpreting health measurements, administering prescribed medication, and facilitating suitable treatment interventions.

### **Harris Health Systems/ LVN**

April 2016- August 2019, Houston,TX

Provide patient care and education for patients in ambulatory care settings.

Assessed pediatric patients and document patient histories. Ensured efficacy of treatments through monitoring of treatment regimens. Documented all elements of nursing assessment treatments, medications, discharge instructions, and follow up care. Provide patients family education on topics including basic nutrition, care, and pain management. Administer scheduled immunizations from newborn to older adults. Assist with obstetric/gynecological exams and procedures ( colposcopy, LEEP)

---
