Supervisor: Tamecia Biggs

Okay to contact this Supervisor: Yes

From 4/2017-4/2018

Worked on the Medsurg unit with the VA. When I moved to the clinic I kept my acute care skills up by working OT on the weekends averaging 40hrs/month. I was also assigned to the COVID Medsurg unit at the VA from 5/2020-9/2020 FT due to the clinic closing and the agency needing nursing assistance on the COVID unit.

Additional Information:

My career goals and aspiration is to provide the best competent and compassionate-based care possible to all individuals, without prejudice. To be empathetic, honest, fair, and trustworthy to the needs of the patient, their family, and my co-workers. My most valuable skill is that I am an all around people person. My completion of the WGU RN-MSN program during a pandemic represents how I am goal driven to accomplish my goals despite any chaos. I volunteered for a detail assignment working the COVID inpatient unit for 120 days. This speaks to my dedication for my career and upholding my organization's mission statement of fulfilling President Lincoln's promise "To care for him who shall have borne the battle, and for his widow, and his orphan" by serving and honoring the men and women who are America's Veterans. In addition to my assigned role as a RN Care Manager and charge nurse, in the past year I have also taken on the following responsibilities, a Flu Champion, active member of the EPRP, committee member for a QI project on life sustaining treatment decisions, participated on the Ethic's Panel for and educational activity, collaborated with an MD and LPN presenting a "Falls in the Geriatric Population" in which received first place in an hospital-wide poster event, and participating on expanding the IMPROVE project. I am ready to take on a new challenge in my career.
