## Work Experience

---

### **Charge Nurse**

Downtown Baltimore Surgery Center - Baltimore, MD  
January 2015 to Present

I currently work as part time at an Adult Outpatient Surgery center where Endoscopies and Colonoscopies are performed. My role is to oversee pre-op and post-op care. I also do direct patient care involving Pre Op paperwork and recovery from sedation post procedure. If there is a concern in reference to patient care from the NA's, I address the issue with the Surgeon or Anesthesiologist and intervene to recover patients with fluid resuscitation or medication administration. In addition, I also perform chart reviews and audits. Also I call all patients 24hours post procedure to address any questions or concerns. IV insertion is performed by myself and the Anesthesiologist. When needed, I am in the OR for patient monitoring and assistance to the Surgeon. I deliver specimens and biopsies to be sent out to the lab.

### **Staff Nurse**

LifeBridge Health - Baltimore, MD  
October 2021 to March 2022

Critical Care RN in adult ICU at a small community hospital center. Experience with advanced airways, sedation, titration of critical medication drips. ACLS algorithm carried out every shift. Experience working as part of a team, supporting and integrating team work to provide the best patient care possible. Continuing education to remain up to par with healthcare as it is ever changing.

### **ED Staff Nurse**

MedStar Franklin Square Medical Center  
March 2021 to October 2021

Working in an extremely busy ED, I currently take care of patients that require emergency medical treatment. Many patients admitted for COVID 19 symptoms, pediatric patients, ETOH withdrawal, sprains and broken bones, unfortunate code blue cases, assistant to MD during intubation with drug administration and patient monitoring, conscious sedation, and any other patients needing treatment. In addition I insert and maintain IV access, apply restraints when needed as a team, transport patients to scans, report to inpatient units for patient admission, and work as part of a team in every effort to practice safely and do what is best for the patient.

### **Permanent Charge Nurse**

University of Maryland Medical Center - Baltimore, MD  
November 2011 to March 2017

An extremely Busy Pediatric Progressive Care Unit with 28 beds; patients admitted from PEDS ED, PICU, direct admissions, and outside hospital transfers.

Overseen functioning of the unit directing admissions, discharges, and patient flow  
Supervised and coordinated the progressive care unit each shift  
Managed difficult and complex patients and families  
Coordinated patient assignments and staffing needs  
Outstanding preparation for JCAHO site visits  
Utilized computer systems that linked the unit to the hospital  
Motivated staff in delivering effective and high quality care  
Evaluated and monitored patients care through direct rounds  
Supervised staff of skilled RN's, PCT's, and Unit Clerks  
Served as a role model in creating a warm environment for families, staff, physicians, patients, and visitors  
Handled tasks like PI initiatives, emergency equipment checks and supplies  
Ensured that bedside hand off took place at the change of shift and that charge hand off was complete and concise  
Participated in the unit peer review committee for annual evaluations  
Determined patient care assignments based on nursing skill levels and patient needs  
Responded quickly to emergency situations and remained calm  
Schedule changes and updates as needed  
Preceptor to new charge nurses  
Acted as a resource for the PEDS ED and PICU for dialysis and chemotherapy administration  
Service recovery

### **RN Charge Nurse/ Staff RN**

University of Maryland Medical Center - Baltimore, MD  
July 2006 to November 2011

An extremely busy Pediatric Progressive Care Unit with 28 beds. Patients admitted from PEDS ED, PICU, direct admissions, and outside hospital transfers. The patient population on the unit was very versatile. I gained excellent knowledge from my experience on this unit. Please find below the many different skills and diagnoses treated and the very diverse patient population.

Administered chemotherapy and blood products to the hematology/ oncology patients which unfortunately included a lot of the patients  
Administered IV and PO antibiotics, maintenance fluids  
Administered respiratory medications to asthma, RSV, and pneumonia patients along with Respiratory therapists  
Monitored patients on Cardiac/ Respiratory monitors  
Administered IVIG  
RN to patient ratio averaged 1:5  
Took care of psych patients awaiting inpatient psych placement, discharge home or with another designated care giver for the patient  
Administered peritoneal and manual dialysis

As mentioned, this is an extremely busy unit and the care I provided was so diverse. I gained so much knowledge on this unit and I like to describe the diversity as things that were seen in a textbook that you think you will never see, you will see on this unit.

## Education

---

### **Associate degree in Nursing**

Anne Arundel Community College - Arnold, MD

December 2006

## Nursing Licenses

---

### **RN**

Expires: April 2023

## Skills

---

- I am a team player, highly organized and able to handle multiple tasks simultaneously. My pleasant personality, combined with my knowledge and experience in patient care and leadership, produce an effective nursing professional who is dedicated to providing the highest level of patient care at all times. I have a passion for quality patient care. In addition, I have a reputation for cultivating cooperative relationships among health care teams, patients, families and care givers. I have a solid educational foundation. I am confident that I am your candidate for this position. (10+ years)
- Acute Care (10+ years)
- Nursing Experience (10+ years)
- Dialysis Experience
- Medication Administration (10+ years)
- Vital Signs (10+ years)
- Supervising experience (10+ years)
- EMR Systems (10+ years)
- Experience Administering Injections (10+ years)
- Epic (8 years)
- Cerner (8 years)

## Awards

---

### **Shining star**

April 2014

I was the first Shining Star selected on the unit. This included Recognition through nomination by staff for outstanding performance and leadership on the unit. This was a quarterly recognition and it consisted of a display of your photo and a description of the reason why you are being recognized on a bulletin board in front of the nurses' station in the hallway.

### **You were noticed**

February 2017

Recognized by ED Charge RN for excellent, timely admission processes and professionalism.

### **You Were Noticed**

I was given multiple You Were Noticed cards from patients and families for outstanding care or anything they felt you needed recognition for. This card was then photo copied and faxed to HR for employee file and placed in a drawing for a gift card. It was also signed by the Nurse Manager.
