Work Experience

Staff RN, Level II / Level III NICU

HEALTHONE-RMHC@PRESBYTERIAN ST.LUKES MEDICAL CENTER

2006 to 2020

Provided advanced, exceptional care for premature, term, and sick infants, with a gestational age of 23 weeks old, to full term.

Managed and coordinated schedules and care plans for infants every three to four hours. This care included vital signs, diaper changes, skin care, administering medications, respiratory needs, feedings, post operative care, treatment and dressing changes, and lab draws as ordered.

Helps develop a reasonably effective discharge plan, and helps to educate parents to understand the medical needs, and requirements for their child.

Served as a mentor and resource for new nurses.

Gave detailed and accurate shift change reports.

Staff RN, Level II / Level III NICU

AVISTA ADVENTIST HOSPITAL - Louisville, CO

2004 to 2006

Attend deliveries and perform APGAR scoring. Implement neonatal resuscitation procedures as appropriate.

Manage four-hour transitional care program, including lab work per protocol and parent education as needed. Assess gestational age, monitor vital signs, weight, genetic screening tests, feedings and glucose monitoring.

Provide advanced care for Level III newborns, infants as young as 31-32 weeks gestational age, as well as care of newborns with respiratory distress, sepsis, and other issues. Assist with stabilization and transfer of critically ill infants to other hospitals.

Administer O2 therapies, IV antibiotics, TPN and lipids, gavage feedings; assist premature infants with transition to nipple feedings.

Staff RN, Newborn Nursery/Transition Nursery

PRESBYTERIAN / ST. LUKE'S MEDICAL CENTER - Denver, CO

1999 to 2004

Coordinated admission of well newborns. Assessed gestational age, monitored vital signs, weight, genetic screening tests, feedings and glucose monitoring. Coached mothers in breastfeeding.

Provided advanced care for Level III newborns, administering nasal O2, jaundice phototherapy treatments, and gavage feedings. Performed lab draws and toxicology screens. Established care plans and administered routine medications.

Assisted doctors with circumcision procedures; provided follow up care and parent education.

Served as resource for obstetrics nurses. Performed inventory stocking for next shift.

Staff RN
