Work Experience

Registered Nurse (RN)

Sacred Heart Medical Center - Spokane, WA

September 2016 to Present

Currently working as a psychiatric nurse for the last 5 years at PSHMC. I have gained experience in assessing patients and managing safe environments in the psychiatric unit. I have learned how to interact and deal with patients during their time of sickness. I am comfortable with helping council and treat patients through their difficult times. I have experience in all psych departments with in PSHMC including AGPU, PCCA, GOLD, and Orange zone. All age groups and all levels of acuity.

Travel Assignment

Inland Behavior Health Hospital

March 2022 to July 2022

Work as an RN for a temp job at behavior health hospital in Eastern WA. Assigned as lead nurse to 25 patients. Managed care, medication administration, care plan treatment, provided support and education to patients.

Registered Nurse (RN)

Deaconess Medical Center - Spokane, WA

June 2013 to September 2016

Worked as a floor nurse on a post surgical/ medical unit. Very familiar with specialized abdominal surgeries such as bariatric surgeries, Whipple, Ivor Lewis.

Gynecological specialized surgeries, urinary specialized surgeries and then all other basic surgeries such as . We have also been taking over care of orthopedic patients since Deaconess orthopedic floor was partially closed for remodeling. I am very comfortable with epidurals, PCA, IV med administration, central line care,

Port care, IV starts, NG tubes, wound vacs, and physical assessments. Pain management is huge on our floor and we do the best to our ability to answer call lights. We also do bed side report and hourly rounding. Managing care of 5-6 patients.

Registered Nurse (RN)

Sunshine Gardens - RN

July 2011 to December 2013

Took on all the responsibilities of an RN. Prioritizing, supervising, communicating/ consulting with health care providers, assessing and evaluating patients, administering drugs, performing treatment care, teaching and implementing nursing skills. I have been employed at my current job since November 2010, first as an LPN and now as an RN, as of July 2011. I work full time in the rehabilitative part of the facility. This is where a lot of post-surgical patients come after being discharged from the hospital but still require high nursing skills. I have experienced a lot and learned so much on this floor. I have increased my knowledge on post-surgical care such as wound care, pain management, wound vacs, CPM, stitches, staples, dressing changes and how to properly transfer patients under different circumstances. I have also had the privilege of working with patients on hospice and providing end of life comfort care. I have worked with keo-feed tubes, peg tubes, IV lines, PICC lines, foley catheters and patients with pacemakers. I have worked a lot with a variety of patients with different diagnosis. MY duties as a nurse have also improved not only in patient care but in documenting, delegating, time management, taking orders and processing them, prioritizing, advocating and reaching out to other employees and services that can assist the patient with any other concerns that they may have.

LPN

Sunshine Gardens
November 2010 to July 2011

Alternated between day shift and evening shift providing quality, long-term care to residents and short term to medical patients ranging from adult to geriatric patients.
