Work Experience

LPN Charge Nurse

Liberty Heights - Colorado Springs, CO

August 2022 to Present

Performs various duties to provide quality nursing care to residents to maintain or attain the highest practical level of functioning and to coordinate total nursing care for the residents as illustrated by the following:

Assesses residents and analyzes obtained information to develop appropriate interventions to prevent decline; records signs of change in condition; notifies appropriate staff per facility protocol to evaluate weight loss, decline in ambulation, development of skin breakdown and other changes; observes conditions that indicate possible need for restorative nursing programs and then notifies appropriate staff per facility protocol of the need for evaluation; informs the physician of changes in assessment when appropriate.

Administers medications and treatments to residents; monitors administration of intravenous fluids; places orders for medication with the pharmacy.

Assesses residents on admission to develop interim care plan and further assesses in depth to contribute to the complete care plan. Updates care plans as warranted and required. Attends and participates at Plan of Care meetings as scheduled.

Responds to emergencies; assesses the condition of the resident; decides on the type of medical attention required; calls appropriate ambulance service if needed; notifies family when resident is transferred or admitted to the hospital; notifies the physician when a change in condition occurs.

Confers with residents and families; makes referrals to other departments when appropriate.

Maintains resident clinical files; keeps charts updated; documents.

Completes employee and resident incident report forms; completes follow-up investigation forms.

Makes rounds to see each resident daily and as needed.

Ensures that residents are aware of the services available to them; encourages residents to participate in activity programs and provides staff support to enable residents to get to and from activities and to participate in them.

Maintains accountability for controlled substances; inventories medications at the beginning and end of the shift with another licensed nurse; notifies supervisor of discrepancies.

Supports the facility's medical supply system; follows procedures for resident charge items.

Correlates accurate and complete documentation and its impact on reimbursement and federal regulations.

Communicates status of residents to incoming personnel according to established procedures; communicates with physicians; transcribes, clarifies and implements physicians' orders. Supervises the certified nursing assistants and the unit clerk and determines work procedures; prepares work schedules, expedites workflow, evaluates, counsels and disciplines.

Ensures that certified nursing assistants, unit clerk and all supervised personnel adhere to standard job requirements.
