Proven leader with experience working in a team environment.

Providing expert coordination of staff and communication with patients.

Flexible and adaptable to changing patient needs and conditions.

Work Experience

Charge Nurse

UCHealth Memorial Hospital Central - Colorado Springs, CO

October 2015 to Present

Maximized team performance by monitoring nursing care, including patient assessment processes and treatment implementations.

Assessed patients' treatment progress and communicated my findings to the on-call physician in order to maintain or adjust prescribed care.

Interacted with patients and loved ones in a professional manner, kept them informed, and advocated for their care plans.

Calmly and effectively prioritized urgent and non-urgent patient needs.

Collaborated with a multidisciplinary team to implement effective treatment plans for a variety of acute and chronic illnesses.

Trained new nurses in proper techniques, care standards, operational procedures, and safety protocols to improve performance and safety.

By strategically organizing and delegating tasks, I was able to effectively address rapid response situations.

Achieved successful unit leadership by providing quality nursing care to [10] to [22] patients per day in a [22]-bed unit.
