

Kathleen Snipes Hall, RN

Kathallrn68@gmail.com

(916) 890-7966

Certifications

RN(Ca BRN #814628), MICN, TNCC, ACLS, PALS, NIHSS

Experience

03/2017-06/22

Dignity Health, Mercy San Juan, Carmichael, CA- RN Emergency Services

- Triage, assess and implement evidence-based treatments for patients from birth and beyond in the emergency room at a Level II Trauma Center. Prioritize patient care with clinical experience and knowledge and evaluate interventions continuously to stabilize patients that are critically ill.
- Understand procedures and protocols to manage Respiratory Distress, cardiopulmonary resuscitation, STEMI, Stroke, Sepsis, conscious sedation and psychiatric emergencies to achieve goal-oriented outcomes.
- Communicate effectively with team of providers and staff with patient condition changes and/or recommendations for care. Educate patients and families on management of care beyond discharge.
- Independently seek resources for learning opportunities within and outside of the hospital and keep all licenses up to date.

01/2015-03/2017

Dignity Health, Methodist Hospital, Sacramento, CA- RN Emergency Services

- Triage, assess and implement evidence-based treatments for patients from birth and beyond in the emergency room at a Certified Stroke and Chest Pain Center.
- Continually reassess patients in a timely manner, interpret lab data and monitor patients for acute changes and provide further interventions to stabilize patients.
- Communicate results of data and interventions to team of providers and apply knowledge to make clinical recommendations and therapies for the patients.

12/2012-12/2014

Dignity Health, Methodist Hospital - *RN Cardiac Telemetry*

- Assess and manage patients on cardiac telemetry by monitoring ecg changes/arrhythmias, interpreting lab values and exams and communicating data to team of providers and staff to implement safe interventions.
- Efficiently apply interventions to patients with acute changes using evidence-based practice and clinical judgment.
- Communicate treatment and management of care to patients while in the hospital and provide extensive instructions upon discharge.
