Research

QUALITY IMPROVEMENT PROJECT, Orange, CA January 2019 – March 2019
Created a Nursing Unit Practice Council for the Float Pool department at UCIMC. Interviewed RNs and CNAs in the float pool department. Conducted a literature review to use evidence-based practice for the formulation and structure of the practice council. Critically appraised the QI project to see how well the QI project aligned with theoretical frameworks.
THE SCRIPPS RESEARCH INSTITUTE INTERNSHIP, San Diego, CA June 2013 – September 2013
Researched the role of neural stem cells in the treatment of metastatic cancer. Conducted experiments on cancer cell lines. Presented findings/conclusions at the annual CIRM stem cell conference in San Francisco.
