OBJECTIVE:

To provide skilled intensive care nursing in an acute care setting.

SKILLS SUMMARY:

I have eighteen years of registered nurse experience; sixteen of those years are in an intensive care setting. My experience includes obtaining peripheral intravenous access, administering intravenous medications, administering blood products, complete head-to-toe assessment, assessing neurological status, monitoring vital signs, basic EKG analysis, Swan-Ganz monitoring, monitoring ICP drains, CPR, ACLS, chest pain evaluations, care of post Cardiac Cath patients, post PTCA patients, managing the care of patients on CRRT, caring for status post breast flap patients, and general medical/surgical ICU patients. I have experience titrating drugs including Dopamine, Dobutamine, Phenylephrine, Vasopressin, and Norepinephrine drips, intensive care medication calculations such as Heparin drips and other drips requiring calculations. I have experience caring for a variety of patients with the following diagnoses: ARDS, COPD, Respiratory failure, Pneumonia, Asthma, Diabetic Ketoacidosis, HIV/AIDS, Sepsis, Septic Shock, End-Stage Renal/Liver Disease, Multi-System Organ Failure, and Neurological Disorders, GSW(gun shot wound) victims, trauma patients, transplant patients, and variety of other surgical patients. I have also received training and provided immediate post-op care to Open-heart patients. I was also the (RRT) Rapid Response RN at Providence Tarzana.

I also have recovery room experience.
