PROFESSIONAL PROFILE

Registered Nurse with experience in multiple clinical settings and passion for high-acuity care. Strong communication and teamwork skills, able to thrive in fast-paced settings and deeply committed to delivering outcome-based care for patients across the lifespan.

NURSING EXPERIENCE

Registered Nurse: ICU 05/2022- Present

Corner Stone Specialty Hospital- Round Rock, TX

- » Monitor critically-ill patients in long term acute care setting in an ICU setting.
- » Closely monitor and assess patient health status, document assessments and notify physician of changes.
- » Operate ventilators, perform tracheostomy care and maintain integrity of invasive lines.
- » Analyze patient laboratory data and report abnormal assessment findings to appropriate providers.
- » Initiate standing orders and protocols based on changes in patient health status
- » Initiate and maintain administration of high-risk medications and titrate drips on critically ill patients in an acutely intense setting.
- » Respond to patient codes and perform various roles in the ACLS protocol including running patient codes.

Registered Charge Nurse: Physical and Occupational Therapy 12/2021 – 06/2022

PAM Health Rehabilitation Hospital of Round Rock · Round Rock, TX

- » Effectively apply the nursing process in providing care for post- acute medical rehab patients at inpatient facility.
- » Work with healthcare team to assess patients, perform and interpret diagnostic tests, and develop outcome-driven plans of care.
- » Direct and supervise LVNs, LPNs, PCTs, and CNAs, demonstrating leadership and delegating tasks within scope of practice.
- » Monitor all aspects of care, carry out physicians' orders, dispense medications, and ensure patient safety at all times. Admit patients into hospital via direct admission or transfer of care.
- » Provide compassionate, attentive support for patients and family members. Deliver education regarding disease processes, treatments, medication, and lifestyle.

Registered Nurse: SICU 10/2021 – 04/2022

Dell Seton Medical Center, University of Texas · Austin, TX

- » Deliver evidence-based nursing interventions for critically ill non-ambulatory patients in Surgical Intensive Care Unit at Level I Trauma hospital.
- » Collaborate with multidisciplinary teams to manage complex patients, develop plans of care, and implement treatment.
- » Respond to trauma alerts in ED and OR, maintaining calm, professional demeanor in high-pressure situations.
- » Participate in mass transfusion protocols, initiate the administration of high-risk medications, and titrate drips.
- » Operate ventilators, feeding tubes, and tracheostomy tubes.
- » Closely monitor patient heart rhythms for detection of arrhythmias.
- » Monitor arterial lines, pulmonary artery lines, central venous catheters, and drains.
- » Closely monitor patients and document status.
- » Assess and coordinate discharge, providing thorough patient and family education.

ADDITIONAL HEALTHCARE EXPERIENCE

COVID-19 Lab Manager 11/2020 – 12/2021

Quick Care · Corpus Christi, TX

- » Performed COVID-19 nasal swab tests for up to 800 patients daily in fast-paced lab.
- » Checked patients in, verified patient data, and clearly explained testing procedure.
- » Analyzed test results and communicated positive results.

Patient Care Technician Level II 12/2018 – 11/2020

St. David's North Austin Medical Center · Austin, TX

- » Supported patients and provided assistance to nurses and physicians in high-acuity Neurological/Med-Surg unit. Floated to ED, NICU, Postpartum, and Oncology.
- » Provided patient transport, pre-surgery preparation, and activities of daily living.
- » Responded to codes, monitored vital signs and reported changes in status, and performed electronic charting in Meditech and EPIC.
