- Gathered detailed patient histories and performed comprehensive physical examinations for wellness visits, chronic care management, and acute conditions
- Ordered and reviewed results of diagnostic tests including imaging tests, EKGs, and laboratory results, correlating findings with clinical presentation
- Diagnosed, prescribed treatment, and monitored efficacy for a variety of illnesses including diabetes, hypertension, hypercholesterolemia, and various infectious processes
- Performed gynecologic exams and PAP smears; STD screenings and treatment; and prenatal care, screening, and education
- Gained proficiency with well child examinations, pediatric chronic illness management, and episodic visits for newborns to 18 years old

### Professional Experience

**Registered Nurse – Cardiac Telemetry Unit, Sutter Roseville Medical Center, Roseville, CA**

January 2022 – September 2022

- Collaborates with the interdisciplinary team of physicians, nurses, and therapists to provide holistic and evidence-based nursing care to patients undergoing pacemaker insertions and stent placement as well as those with acute coronary syndrome
- Monitors patient condition, including interpreting and tracking EKG readings, identifying irregular telemetry readings, and updating team members on changes in stability or acuity
- Ensures that patients were properly educated utilizing an appropriate teaching method concerning their disease, treatment, and options
- Utilizes electronic medical records, ensuring detailed and current comprehensive documentation of assessments, care plans, medications, and patient specific education

**Registered Nurse – Float Pool, St. Joseph Hospital, Eureka, CA**

April 2016 – October 2021

- Provided exceptional and compassionate care to patients suffering from a broad spectrum of acute complications of chronic diseases, infections, and injuries in the emergency department, observation unit, and progressive care unit
- Prioritized nursing care based on patient condition and responded to interruptions while delegating care to achieve optimal, safe, and effective outcomes
- Documented the effectiveness of patient care and modified plan of care as needed
- Provided leadership in nursing as a preceptor to students and newly hired nurses, ensuring policies, procedures, and unit expectations were understood

### **Registered Nurse – Float Pool, Queen of the Valley Medical Center, Napa, CA**

June 2015 – April 2016 | Travel Nurse

- Displayed adaptability and versatility by floating to various telemetry, medical/surgical, and acute rehab units to fulfill staffing needs and provide safe patient ratios
- Advocated for patient needs to the members of the health care team to ensure positive patient outcomes and patient safety maintained
- Collected objective and subjective data from observation, examinations, interviews, and written records, and reported findings in an accurate and timely manner
- Trained students and new registered nurses, emphasizing correct nursing procedures and performance strategies

### **Registered Nurse – Telemetry Unit, St. Francis Medical Center, Colorado Springs, CO**

June 2014 – June 2015

- Maintained optimal workflow in a fast-paced setting, ensuring personal and high-quality care was delivered to each patient encountered
- Performed physical examinations and collected vital signs including heart rate, blood pressure, and pulse oximetry measurements, notifying provider of outlying or concerning data
- Interpreted health measurements, administered prescribed medication, and facilitated treatment interventions as ordered

## **Certifications & Licenses**
