+1 985 722 8040

My goal is to obtain a position as an LPN at a medical facility, contribute to the growth and success of the organization using the skills I've acquired during nursing school, and to further my nursing education to the RN level and beyond.

Willing to relocate: Anywhere

Work Experience

SNF Nurse

Lambeth House

July 2021 to Present

Administer medications, perform medical treatments, diagnostic, and therapeutic procedures, and wound care related to various diagnoses and diseases

Conducted and documented physiological assessments that include blood pressure, pulse, oxygen saturation, skin condition, psychotropic analysis and neurological evaluation

Supervise nursing care staff of 4 CNA's as well as monitoring and attending to the needs of 28 residents

Collaborated with multiple physicians, nurse practitioners, social workers, and family members to ensure the best quality of life for each resident

Clinic LPN

St. Charles Parish Hospital-Primary Care/Urology/Podiatry Clinics

September 2019 to July 2021

1. Triage, treated, and discharged acutely injured and sick patients while appropriately educating patients on self-care for non-urgent issues

1. Provided nursing support to 7 providers, 2 supervisors, and 7 medical assistants in the treatment of thousands of patients, assisted physicians with in-office procedures and managed clinic and surgery scheduling

1. Created a new system for managing and monitoring medications resulting in efficient rotation and safe administration while also ensuring Joint Commission guidelines are met

1. Floated to multiple departments in different specialties as needed; becoming proficient in vaccine and injectable medication administration, urethral catheterization, EKG's, specimen collection, point of care testing, oral and nasal swabbing, and wound care
