Work Experience

Clinical Nurse Manager

Interim HealthCare - Columbia, SC
April 2022 to Present

Responsible for oversight of entire hospice staff. Ensuring documentation and care follows Medicare standards. Scheduling of all disciplines for patient care. Marketing the hospice to new physician offices and hospitals. Collaboration with entire disciplinary team to excel in patient care. Identifying home health patients that were hospice appropriate and bridging the patient to hospice. Conducting annual employee reviews. Working to establish emergency plans. Built census of hospice patients. Maintaining cost efficiency through keeping supply and prescription cost down to budgeted level. Providing guidance and support to staff when needed along with conducting visits if necessary. Case managing a team when necessary.

Occupational Health Services Manager.

Tyson Food Inc.
December 2020 to June 2022

Responsible for overseeing the entire department, team of nurses, and temperature monitors. Coordinating with plant operation management and human resources. Ensuring the entire workforce is fully vaccinated against COVID-19 and now offering boosters. Managing and performing COVID-19 test, close contact tracing, and management of positive index cases and their return to work. Performing and overseeing the respiratory medical surveillance program, hearing conservation program, and compliance of DOT drivers, breath alcohol testing, urine drug screens both federal and non-federal. Managing workman's compensation cases, including illnesses and injuries. Performing assessments of both occupational and non-occupational illnesses and injuries. Ensuring the department remains up to date with trainings and certifications. Maintain cost efficiency with staffing and supplies. Managing the schedule to maintain coverage for the unit. Providing CPR, AED, and first aid training. Serving as a member of multiple committees. Being a liaison between the team member and their supervisors.

RN agency
August 2019 to December 2020

Going to different facilities to provide nursing care. Performing assessments, interventions, and evaluations of patients. Communicating with providers and families as needed.

RN Unit Manager

Curis Healthcare
December 2018 to June 2019

In charge of long-term care beds and the rehab unit. Oversaw nurses and CNAs, assisted in care of residents when needed. Staffing and on-call for building on a rotating basis. Ensured the unit remained up-to-date on medications, vaccinations, documentation, and care.

Attended Radford University for BSN and Doctorate of Nursing
January 2015 to December 2018

Provided nursing care to my husband that had Acute Myeloid Leukemia, until he passed away. 2012-2014 Care included: central line care: flushes, drawing blood and dressing changes. Intravenous infusions three times a day to his central line. Wound care twice a day to lower extremities. Communication with his nurse practitioner and physician, lab results and condition on a weekly basis.

RN Case Manager

Good Samaritan Hospice - Roanoke, VA
January 2009 to December 2010

Case manager for a team of patients. Coordinated care with primary physician and hospice medical director for patients regardless of their ability to pay with multiple chronic and social needs. Responsible for collaborating with the Interdisciplinary Team to provide holistic care for the patient and their family. Delegated to nursing assistant as appropriate. Reason for leaving, an injury that prevented me from being able to fulfil the nursing duties.

RN Medical ICU

Warren Memorial Hospital - Front Royal, VA
January 2007 to December 2009

Responsible for a team of patients, pediatric to geriatric. Delegated to nursing assistant as appropriate. Reported to on-call physician as needed for concerns or patient changes. Reason for leaving, moved back to Botetourt County.

Travel RN

Flex RN and Co. - Woodbridge, VA
January 2005 to December 2008

Traveled to different hospitals and worked either thirteen-week contracts or as needed shifts. Worked progressive care, medical- surgical, oncology, orthopedics, telemetry, and surgical units. Had to be able to adjust to different situations and work with different nurses, policies, and procedures at different hospitals. Reason for leaving, no longer able to travel away from home after becoming a parent.

Registered Nurse on Telemetry

Loudon Hospital - Leesburg, VA
January 2004 to December 2005

Responsible for a team of patients on a telemetry floor. Worked with physicians to meet the patient's needs. Maintained cultural competency for many different cultures present in Northern, Virginia. Monitored heart rhythms for arrhythmias. Reason for leaving, was unable to make the hour long commute each way any longer.

Registered Nurse Oncology

Rockingham Memorial Hospital - Harrisonburg, VA
January 2003 to December 2005

Responsible for a team of patients. Monitor for response to chemotherapy, assessed for adverse effects, lab work, need for transfusions. Delegated to nursing assistants as appropriated. Charge nurse for night shift. Trained new nurses.

Reason for leaving, moved to Northern, Virginia.

Nursing Assistant I & II

Carilion Clinic - Roanoke, VA

January 2000 to December 2003

Registered Nurse Oncology, 2003

Responsible for a team of patients. Monitor for response to chemotherapy, assessed for adverse effects, lab work, need for transfusions. Delegated to nursing assistants as appropriated. Member of the ethics committee. Trained new nursing assistants. Reason for leaving, married and moved to Stuarts Draft, Virginia.
