Patient centered, detail oriented and compassionate Licensed Practical Nurse with a solid background in Care Management. Seeking a position in Clinical Review or Telephonic Care management. A seasoned, hard working nurse driven to use all of my clinical expertise in patient education to help identify care gaps and improve patient outcomes.

Work Experience

Charge Nurse

Hospital for Chronically Ill – Smyrna, DE

July 2018 to Present

Staff oversight and supervision of CNAs in addition to patient care and medication administration.

- Admission assessments and total bedside nursing care.
- Worked collaboratively with an interdisciplinary team to provide patient centered care.
- Rounds and reporting meetings with management regarding difficult to serve patients.

Home Health Nurse

Bayada Home Care - New Castle, DE

September 2017 to Present

Performed skilled nursing visits to homebound patients.

- Coordinated with Hospital Discharge planners and Social workers to initiate start of care.
- Communicated with insurance providers for authorizations, clinical reviews and cost effective utilization.
- Acted as a patient advocate and assured the patient rights were upheld.
- Identified patient and family knowledge deficits and provided hands on teaching.

Bedside Nurse

Bethel Nursing - Hudson, NY

April 2016 to September 2017

Admission assessments and bedside nursing care to Chronically ill and post-op patients.

- Identified patient and family knowledge deficits and provided hands on teaching
- Used Motivational interviewing technique in recently discharged patients to assess for understanding of disease process to prevent readmissions.
- Identified free community resources and psycho-social support for patients.

Home Health Nurse Case Manager

Datahr Home Care - Mount Kisco, NY

March 2015 to August 2017

Performed head to toe nursing assessments.

- Performed home safety evaluations to prevent falls and injuries.

- Delivered a complete range of LPN services and expertise. Accurately obtained and documented patient history and medication lists for donors.
- Effectively Case managed the Medicare and Medicaid population with chronic diseases to avoid unnecessary readmissions.
- Exceptional capacity to multitask: manage competing priorities with ease while fostering delivery of superior patient care.

Education

High school diploma in Nursing

The Center for Allied Health and Nursing Education - New York, NY

2011
