03/12/2022 Covid crisis Response

CNA

10/11/2021 Registered Nurse Med-surg unit **Kindred Hospital South Tampa-PRN**

02/26/2022

08/2021 to **Angel Staffing (Longview Regional Medical Center) RN** – Longview, TX

10/02/2021 On a covid crisis response assignment in this hospital

- Administered medications via oral, IV and intramuscular injections and monitored responses.
- Managed care from admission to discharge.
- Provided exceptional care to high-acute patients needing complex care such as ventilator management, extensive wound care and rehabilitation.

- Managed quality care for patients with heart failure, end-stage renal disease and coronary artery disease.
- Collected blood, tissue and other laboratory specimens and prepared for lab testing.
- Maintained quality care and comfort for patients with heart failure, pulmonary hypertension and other conditions.
- Advocated for patients by communicating care preferences to practitioners, verifying interventions met treatment goals and identifying insurance coverage limitations.
- Oversaw delivery of care for patients on medical-surgical unit, providing direct care, delegating nursing assignments, and supervising team comprised of nurses, LPNs, technicians and unit clerks.
- Monitored patient condition by interpreting and tracking EKG readings, identifying irregular telemetry readings and updating team members on changes in stability or acuity.
- Monitored patient reactions to drugs and carefully documented findings.
- Provided didactic and clinical instructions to orient new nurses and potential student nurses to achieve training outcomes.
- Minimized hospital stays with recovery-centered approaches, reducing average in-patient stay length.

10/2020 to **Registered Nurse, Medical-Surgical Unit**

08/2021 **AdventHealth Hospital** – Zephyrhills, FL

- Ordered and analyzed diagnostic tests to identify and assess patient conditions.
- Provided direct patient care, stabilized patients and determined next course of action.
- Performed emergency medical procedures such as BLS, ACLS and other condition stabilizing interventions.
- Administered medications via oral, IV and intramuscular injections and monitored responses.
- Managed care from admission to discharge.
- Advocated for patients by communicating care preferences to practitioners, verifying interventions met treatment goals and identifying insurance coverage limitations.
- Updated patient charts with data such as medications to keep records current and support accurate treatments.

01/2020 to **Behavioral Health Charge Registered Nurse**

08/2021 **Acadia Healthcare** – Wesley Chapel, FL

- Administered medications and assessed side effects, successes and failures of new medications.
- Performed standard nursing duties such as drawing blood and physical well check examinations.

- Assisted in calming patients using recognized best practice techniques with help from assistants and guards.
- Offered exceptional care and support to individuals recovering from acute incidents and dealing with chronic conditions.
- Communicated with healthcare team members to plan, implement and enhance treatment strategies.
- Managed patients recovering from medical or surgical procedures.
- Evaluated patient histories, complaints and current symptoms.
- Recorded details regarding therapies to keep patient charts updated.
- Investigated and resolved issues affecting hospital operations and patient care.
- Used first-hand knowledge and clinical expertise to advocate for patients under care and enacted prescribed treatment strategies.
- Followed all personal and health data procedures to effectively comply with HIPAA laws and prevent information breaches.
- Applied nursing expertise to meet needs of my patients in challenging environment.
- Assessed and evaluated mental health needs, working with multidisciplinary team to initiate, manage and modify individualized care plans.
- Strengthened training and nursing knowledge by taking part in continuing education programs and behavioral workshops.
- Administered different therapies and medications in line with physician orders and treatment plan.
- Delivered high level of quality care to diverse populations while overseeing patient admission and triaging based on acuity and appropriate department admission.
- Administered medications to patients and monitored response to medications.
- Performed triage on incoming patients and determined severity of injuries and illnesses.
- Provided skilled, timely and level-headed emergency response to critically-ill patients.
- Facilitated therapeutic communication, conflict resolution and crisis intervention by redirecting negative behaviors and helping patients regain or improve coping abilities.
- Advocated for and strived to protect health, safety and rights of patient.
- Accurately documented treatment, medications and IVs administered, discharge instructions and follow-up care.
- Adhered to strict safety measures by carefully determining proper dosages before administering medications.
- Monitored patient reactions after administering medications and IV therapies.
- Promoted patient and family comfort during challenging recoveries to enhance healing and eliminate non-compliance problems.

- Assisted in calming patients using recognized best practice techniques with help from assistants and guards
