davidsniderusf@gmail.com

Highly motivated, team-oriented, and deeply committed registered nurse with experience in providing acute care in med surge, pulmonary, neuro, and cardiac settings. While my greatest passion lies in emergency and trauma care, my notable accelerated nursing program has afforded me the privilege of working in multiple clinical settings, all of which have provided me with unique growth and enrichment. I recently graduated with a BA in Psychology and a minor in Biology from the University of St. Francis in Indiana. With a newfound passion for medicine and patient-driven care, I then obtained my Bachelor of Science in Nursing from the University of Saint Thomas in Houston, Texas. I graduated with Cum Laude honors from both schools, but perhaps more importantly, found a distinct and ever-growing passion for exceptional patient-driven care.

My overarching objective is to practice nursing in ways that encompass the whole person both physically, mentally, and spiritually. Driven by empathy and compassion, I am a people-oriented person with tremendous enthusiasm, a fierce work ethic, a desire for human kindness, and in the confidence I possess in my desire to give my sincerest effort 100% of the time.

Clinical Experience

St. Luke's Hospital- ICU Rotation

St. Josephs Hospital- L&D Rotation

Houston Methodist - Med Surge Cardiac Rotation

Child and Family Case Worker -

Sierra Child & Family Services - Diamond Springs, CA

March 2021 to August 2021

A Family Specialist provides one-to-one mental health rehabilitative services to clients and their caregivers in the community and home settings. A Family Specialist will design a treatment regime in coordination with a clinical team that will assist the child and family in developing the skills needed to reach their individual treatment goals.

Mental Health Technician

Sierra Vista Hospital - Sacramento, CA

March 2020 to March 2021

The Mental Health Technician (MHT) functions as an active part of the treatment team, providing continuous patient care, supervision, interaction, and role modeling to patients ranging in age from adolescent through geriatrics. Mental Health Technicians work under the direction of a Registered Nurse. The Mental Health Technician is responsible for providing treatment activities to the patient, which includes conducting community groups.

Volunteer Surgery Technician

Beach Orthopedic Speciality Institute - Sunnyvale, CA

January 2018 to January 2019

Volunteered to shadow surgeries in my Oral & Maxillofacial surgery office. He was able to gain exposure to patient interaction, view surgical techniques, and the administration of office-based anesthesia.

Bachelor's in Nursing (3.75 GPA)

University of Saint Thomas - Houston, TX

August 2021 to August 2022

Bachelor's in Psychology (3.6 GPA)

University of Saint Francis - Fort Wayne, IN

August 2015 to May 2019
