Detail-oriented and driven with expertise in problem-solving and managing daily office functions. Performed stat and routine test on a variety of specimens quickly and accurately. Experience in both hospital and private laboratory environment. Proven attention to detail in all areas while still maintaining deadlines.

- # Ensured test-result validity before recording/reporting results, earning a reputation for meticulous attention to detail.

- # Ensured compliance with government requirements, hospital policies, and laboratory procedures.

- # Performed a variety of laboratory-based sampling, testing, measuring, recording, and analyzing of results in the chemical, hematological, microbiological, and serological areas used in diagnosis, treatment, and prevention of disease.

- # Providing the exemplary quality of care Evaluated quality control within the laboratory using standard laboratory test and measurement controls.

- # Executed and analyzed tests in areas including chemistry, hematology, urinalysis, serology, microbiology and transfusion services to aid physicians in diagnosing and treating disease.

- # Maintain quality results by running standards and controls, verifying equipment function through routine equipment maintenance and advanced troubleshooting; calibrating equipment utilizing approved testing procedures; monitoring quality control.

- # Examining and analyzing body fluids, tissues and cells

- # Identifying potentially harmful microorganisms

- # Analyzing the chemical makeup of body fluids

- # Testing blood for drug levels to measure the efficacy of particular treatments

- # Evaluating test results for accuracy

- # Helping interpret test results for physicians

- # Operating, maintaining and repairing clinical instruments

- # Using complex computer systems for data entry, retrieval and analysis

- # Ensuring quality control throughout the lab

- # Supervising inventory

- # Teaching proper laboratory practices to students and healthcare personnel

Work Experience

National Service Maternal and Child Health Hospital - Kumasi

Two months vocational Training Life Sciences, Cape Coast.

Two months attachment Maternal and Child Health Hospital - Kumasi

Bekwai Municipal Hospital

One month Vocational Training Ewim Polyclinic

FUNCTIONS PERFORMED DURING ATTACHMENT

- # Record keeping

- # Phlebotomy

- # Serological testing
- # Analyzing hematological Test
- # Analyzing urine in the parasitological laboratory
- # Microscopy of thin and thick film

Education

B.Sc. in Physician Assistantship-Medical

College Of Health And Well
2018 to 2022

B.Sc. in Medical Laboratory Technology

University of Cape Coast
2013 to 2017

General Science

Presbyterian Senior High School
2008 to 2012

Skills

- # Reading periodicals
- # Listening to music
- # Watching movies
- Laboratory Procedures
- Laboratory Experience
- Microscopy
- Chromatography
- Anatomy Knowledge
- Venipuncture

Certifications and Licenses

Clinical Laboratory Scientist License

Medical Laboratory Scientist Certification
