+1 405 301 1460

Staff Nurse/ Travel Nurse

- Highly skilled, compassionate, dedicated, caring, honest, loyal, driven, hardworking career professional with 10 years practical experience. I have worked in multiple patient care units including telemetry, step-down, intermediate care, and progressive care units within teaching, private, and trauma hospitals.
- Staunch patient advocate providing first-rate care to patients of various ages and medical conditions. Reputation as a team player with a positive attitude that functions well in multiple departments with fluid environments.
- Effectively collaborated with physicians and other disciplines regarding patient care including core measures, treatment protocols, test results, change in patient status, assessments, counseling, education, and customized care plans.
- Managed care for ventilated and trached patients, titrated cardiac medications such as dobutamine, Cardizem, amiodarone, and dopamine. Managed care for cardiac patients post cardiac catheterization, post permanent pacemaker placements, post coronary artery bypass surgery, and post chest tube placement. Proficient in telemetry monitoring and strip interpretation as well as 12 lead EKG placement and analysis.
- Proficient in EPIC and MEDITECH computer charting systems. Proficient in Angel, Ecollege, Canvas, and Desire2Learn online management systems.

Willing to relocate: Anywhere

Authorized to work in the US for any employer

## Work Experience

---

### TEACHING EXPERIENCE

Chamberlain College of Nursing, Fall 2017-2019  
Complex Adult Health, Adult Health II

Chamberlain College of Nursing, Summer 2017-2019  
NR 324 Adult Health I, NR 325 Adult Health II, and NR 293 Pharmacology for Nursing Practice

Chamberlain College of Nursing, Spring 2017-2019  
NR 341 Complex Adult Health, NR 324 Adult Health I, and NR 325 Adult Health II

Chamberlain College of Nursing, Spring 2017  
NR 325 Adult Health II- This course covered topics related to nursing care of the patient with alterations in the following health systems: endocrine, urinary and renal, neurological, hepatobiliary, and male and female reproductive. In addition, nursing care of the patient with cancer and end-of-life care.

Clinical Coordination- Served as the point of contact for the visiting professors and ensured consistency between clinical and didactic.

Chamberlain College of Nursing, Spring 2017  
NR 341 Complex Adult Health- The primary focus of this course is adult patients with unstable emergent critical illnesses.

Clinical Instructor- Supervised care provided by a group of students (usually 8-10 students in a group) while they complete their clinical rotation in critical care. Coordinating with clinicians at the clinical site to make student patient assignments. Taught students how to perform duties in the clinical site and answered their questions regarding the nursing process. Evaluated students clinical and professional behaviors.

Chamberlain College of Nursing, Fall 2016  
NR 324 Adult Health I- Supported students with developing the knowledge, skills, and attitudes necessary to care for adult patients with acute and chronic illnesses. Developed presentations and lectured on topics related to the following system alterations: acid-base imbalance, fluid and electrolyte imbalance, the respiratory system, the cardiovascular system, the gastrointestinal system, the hematologic system, the immune system, and the musculoskeletal system.

Chamberlain College of Nursing, Summer 2016  
NR 293 Pharmacology for Nursing Practice- Guided students through the study of medications utilizing the nursing process. Assisted students with organizing, applying nursing knowledge, and practicing in the most efficient and safe manner.

Chamberlain College of Nursing, Summer 2016  
NR 341 Complex Adult Health- In this course, I continued to build on the knowledge students gained in previous courses by integrating nursing, technological, and scientific knowledge with clinical judgment to potentiate optimal health within a diverse patient population. The primary focus of this course

is adult patients with unstable emergent critical illnesses. I facilitated learning through the use of powerpoints, games, case studies, podcasts, and visual aids. I tailored learning in order to reach all learning styles.

MSN Student Practicum, Spring 2016

NURS 5924 Leadership and Scholarship in Nursing Education- Conducted an organizational needs assessment and developed and implemented a quality improvement initiative. Created, prepared, and delivered lectures, power points, and training for Registered Nurses and Exercise Physiologists.

MSN Student Practicum, Fall 2015

NURS 5253 Facilitating Learning in Nursing- Created course content, prepared and delivered lectures via podcast and power point to the Accelerated Bachelor of Science in Nursing (ABSN) students over various subjects. Proctored exams and assisted with perioperative simulation labs. Assisted with the ABSN clinical rotations, evaluated and graded clinical care plans, and provided feedback.

MSN Student Practicum, Summer 2015

NURS 5263 Testing and Evaluation in Nursing Education- Developed and critiqued test items, discussed test anxiety, and academic integrity, and analyzed test items to improve exams.

NURS 5003 Application of Advanced Clinical Concepts in Care of Populations- Provided care for various clinical populations in an acute care facility by conducting a mini-ethnography and health literacy assessments, collaborating with patients to provide medication education and promoting evidence-based quality improvement initiatives to improve clinical outcomes.
