Work Experience

RN Pre-Op/PACU

Legent ASC - San Antonio, TX

September 2021 to March 2022

PREOP/PACU RN

Responsible for and monitored patients after various types of surgery. I monitored the patient's condition, measured vital signs, such as heart rate, blood pressure and oxygen level. Assessed and monitored for PONV pain or discomfort as well as the surgical incisions and well-being of the patient. Provided direct clinical patient care. Assumed responsibility for assessing, planning, implementing direct clinical care to assigned patients on a per shift basis, and unit level. I was accountable to support and ensured high quality, safe and appropriate nursing care, competency of clinical staff, and appropriate resource management related to patient care

Hospice RN Case Manager

Good shepherd hospice - San Antonio, TX

July 2020 to September 2021

RNCM, Administered nursing care to ill, End of life, transitioning, injured, or disabled patients. Diagnosed and established patient treatment plans. Monitored and reported changes in patient symptoms or behavior. Communicated with collaborating physicians or specialists regarding patient care. Educated patients about health maintenance and disease prevention. Facilitated referrals to other healthcare professionals and medical facilities. Maintained accurate patient medical records
Provided advice and emotional support to patients and their family. Built rapport with patients and family. Required strong problem solving and critical thinking skills, was able to thrive in a fast-paced environment.
