OBJECTIVE

Experienced nurse with aspirations to utilize skills learned in the hospital setting to provide compassionate, efficient, individualized, and safe care. Through my high acuity experience I have excelled in maintaining a calm and level headed approach in fast paced and high tension settings. For the past year I have been working with Ob/Gyn patients and would like to maintain the adaptable skills sets I have gain in the hospital.

SKILLS

Bilingual in English And Farsi

MS Office (Excel, Word, Access)

Efficient in CPN, EPIC and Meditech

EXPERIENCE

Ob/Gyn RN- Phone Triage / Desk Support

September 2020 – Current

Kelsey Seybold Woman's Center

Meticulously document triage phone calls with prudent recommendations, patient education and clear and concise questions for providers to follow up with

Strategically prioritizing and delegating tasks to ensure patient care and safety is met

Consistently collaborating with providers as the lead RN for NST monitoring, tracking and documentation through a trusting and openly communicative relationship

Administer medications based on provider orders and verification per a detailed chart review and patient interview

Labor and Delivery RN

March 2015 – September 2020

The Woman's Hospital of Texas

Served as a liaison between patient, physician and other multidisciplinary team members.

Planed and managed care of patient in operating room for scheduled and emergency cesarean sections, dilation and curettages, post partum hemorrhages and emergency hysterectomies.

Managed high-risk obstetrical conditions including but not limited to: Preeclampsia, gestational hypertension, gestational diabetes, HELLP syndrome, Multiple fetuses, HIV and other infectious diseases.

Provided patient and family education on labor, pain, breastfeeding and newborn care.

Worked as bereavement counselor in situations of pregnancy loss, ordering and providing appropriate literature and memory boxes to offer the grieving patient.

Worked as staff nurse in triage unit, assessed patient needs vs laboring patients.

Oriented and mentored new nursing staff and nursing students to the labor and delivery floor.
