Career Summary

A Registered Nurse dedicated to providing superior patient care. I am passionate about accuracy while managing patients to ensure quality care. Through extensive training in assessing patient health problems, administering aid to ill, disabled, convalescent, or injured patients, maintaining vital records, implementing nursing care plans, advising patients on health maintenance and preventative services such as screening and precautionary medications, I am persistent and dependable in being committed to the responsibility at hand and creating a safe-effective environment. I am a self-starter, leader, tenacious, and proficient in a group work environment to help ensure exceptional care.
