Compassionate and hard-working Registered Nurse with two years experience in a magnet-designated hospital Level III Neonatal Intensive Care Unit and one year experience in outpatient cosmetic surgery and laser medicine. Empathetic nurse providing safe and effective evidence-based patient care. Exceptional communication skills and an enthusiastic member of multiple interdisciplinary teams.

## EXPERIENCE

### **RN, CARILION CLINIC NICU (SEPTEMBER 2020- CURRENT)**

A patient advocate who works as a member of an interdisciplinary team to provide necessary advanced medical care. Manage multiple forms of oxygen therapy including ventilators. Care for extremely low birthweight neonates and neonates with sepsis, pneumonia, hyperbilirubinemia, hypoglycemia, congenital anomalies, withdrawal, etc. Manage feeding intolerances, intravenous infusions, nasogastric and orogastric tubes. Provide blood transfusions, medication administration, cardiac monitoring, pulse oximetry and thermoregulation. Ensure accurate and timely documentation of the electronic medical record. Provide physical comfort to patients and a caring environment for family members.

### **RN, ALOUF ASTHETICS COSMETIC AND LASER MEDICINE (SEPTEMBER 2021 – OCTOBER 2022)**

A member of an interdisciplinary team who plays many necessary roles to maintain a small business in healthcare. Conduct comprehensive health history and physical assessments. Virtual and telephone assessments with clear patient education and instruction. Circulating operating room nurse managing surgical equipment, sterility, and monitoring vital signs. Act as a patient advocate and collaborate with the physician and certified registered nurse anesthetist. Provide post-operative, recovery, and discharge care. Assess patients for routine follow-ups and manage post-operative complications such as wound care. Utilize critical thinking to analyze collected data from phlebotomy. Initiate intravenous access and administers fluids and medications following direct and/or standing physicians' orders. Maintain accurate, complete, and timely documentation in the electronic medical record.
