**Professional Experience**

**Integrated Resources-Feb2021 and current**  
**Work site is Central Michigan University**

- Administer and observe covid testing for all Athletes and Athletic staff

**Emergency Department - Greenville MI  
RN**

**Feb 2020 to Jun 2020**

- Assisted doctors with examinations of patients by taking vital signs, including blood pressure, height, weight and drawing blood.
- Monitored patients' comfort and safety during examinations and tests to alert physicians of abnormalities and changes in patient response.
- Used EPIC to maintain records of patient care, condition and progress and reported and discussed observations with RN.
- Assessed extent and nature of injury or illness to prioritize and establish medical procedures.
- Collaborated with physicians to quickly assess patients and deliver appropriate treatment while managing rapidly changing conditions.
- Administered different therapies and medications in line with physician orders and treatment plan. Performed frequent checks on life support equipment and made necessary adjustments to preserve optimal patient conditions.
- Performed triage on all incoming patients and determined severity of injuries and illnesses. Educated family members and caregivers on patient care instructions.

**State Of Michigan - Ionia MI  
RN Supervisor corrections**

**Jul 2019 to Jan 2020**

- Managed infection control and critical incidents and made procedural changes and improvements. Interviewed, hired, instructed, and mentored employees and promoted high level of care quality to patients.
- Trained new nurses in proper techniques, care standards, operational procedures, and safety protocols to optimize performance and safety.
- Updated patient charts using Nextgen with data such as medications to keep records current and support accurate treatments.
- Provided direct nursing care to patients when personnel were short- staffed.

**State Of Michigan - Carson City, MI  
RN**

**May 2020 to Present**

- Treat acute and chronic patients, administer vaccinations, medication, administer TB shots, perform lab draws- label all specimens and send to lab.
- Perform Covid tests and label. Respond to emergencies- overdoses, asthma related, chest pain, wound care, stabbings, lacerations, help medical providers with sterile procedures.
- Assessment skills need to be spot on in this environment. Administer PO medications. Start IV, administer fluids. Perform EKGs, educate patients on diseases, medications, diet, exercise.

**State Of Michigan - Carson City, MI  
RN**

**Sep 2013 to Jul 2019**

- Taught patients how to improve lifestyle choices, dramatically reducing chance of symptom reoccurrence.
- Administered medications and treatment to patients and monitored responses while working with healthcare teams to adjust care plans.
- Audited charts and reviewed clinical documents to verify accuracy.
- Participated in nursing simulation activities, evidence-based practice project implementation and competency development to further nursing education.
- Evaluated healthcare needs, goals for treatment and available resources of each patient and connected to optimal providers and care.
- Managed patients recovering from medical or surgical procedures, including facilitating wound care, ostomy care, pressure ulcer prevention and pain management.
- Collected blood, tissue and other laboratory specimens and prepared for lab testing.
- Secured controlled narcotics and distributed medication on schedule to meet patient needs and minimize misuse opportunities.
- Trained new nurses in proper techniques, care standards, operational procedures, and safety protocols to optimize performance and safety.
