

To Whom It May Concern,

Please accept the attached resume as my expressed interest in working with your team. I am certain that my qualifications make me a strong candidate to achieve your patient care goals, including:

- A patient-centered philosophy rooted in the nursing process with attention to assessment, planning and implementation of the highest quality patient care and safety.
- Proven ability to establish a positive, empathetic rapport with patients and family members to facilitate effective communication and education.
- Professional motivation and the capacity to work productively with physicians, nurses, technicians and others in a team effort; a conscientious, dedicated team player.

You will notice that I have more than six combined years of experience providing high-quality nursing care in LTC/rehab, med-surg, cardiac care, psychiatric, Alzheimer's/dementia and other settings. During this time, I developed proficiency in the areas of total patient care, patient teaching and problem solving, along with navigation of Point Click Care ,MDS 3.0, risk watch programs, MATRIX and Point-Click-Care. I am extremely dedicated to patients under my care, resulting in an aptitude for ensuring all patient needs are met from intake through discharge.

As a dedicated healthcare professional with a positive attitude toward new challenges, I have every confidence I can uphold the highest quality of patient care. Realizing that it is not always easy to evaluate a person from such a brief summary, I would appreciate the opportunity to interview with you at your convenience. Thank you for your time and consideration.

Kind regards,

Simone Bryant MSN, APRN, FNP-BC.
