### BLS (AHA)

Exp. 02/2023

### ACLS

Exp. 08/2023

### NIHSS Certification

Exp. 04/2023

## Objective

I am a dedicated RN with nine plus years of well-diversified knowledge; including critical care, intensive psychiatric care, medical-surgical, and correctional nursing experience. I am a self-motivated individual that works effectively both independently and in a team. I am always looking to increase my knowledge and experience as a nurse to further benefit my patients.

## Experience

### Yuma Regional Medical Center- Yuma, AZ January 2022-July 2022

Medical/COVID ICU

EPIC charting system. Specialized in providing compassionate, patient-focused care to a variety of complex critical patients. Assess patients condition and intervene accordingly. Communicate with doctors, other members of the care team, and family members to provide the best care to the patient.

### Baptist Medical Center- Jacksonville, FL June 2021-December 2021

Medical ICU/COVID ICU/PCU Float Travel Nurse

Cerner charting system. Management of COVID patients, many of which were paralyzed, on a ventilator and required proning. Use of BIS monitoring, and Train of Four. Float between multiple ICU and PCU floors in multiple hospitals.

### Baptist Health Fort Smith- Fort Smith, AR

Medical ICU/COVID ICU Travel Nurse

November 2020-May 2021

EPIC charting system. Management of COVID patients, assist in bedside procedures when needed. Management of vented patients.

### University of Arkansas- Fayetteville, AR

Mental Health Clinical Instructor

January 2020-May 2021

Empower nursing students for personal development, academic success, and lifelong learning. Handle confidential information with tact and discretion. Engage students in the subject of mental health while displaying professionalism, subject matter expertise, and teaching skills. Submit required forms and reports including course embedded assessment results and grades within the prescribed time frame. Encourage students to develop a positive outlook on mental health and carry that into their future nursing career.

### Northwest Medical Center- Bentonville, AR

Medical ICU/COVID ICU Staff Nurse

July 2019-October 2020

Cerner charting system. Management of ventilated patients, Arterial line management, Interpretation of ABG's, Interpretation and management of dysrhythmias, Central Line management, Management of IV drips, Continuous IV sedation and paralytics, Titration of IV vasopressors, Management of patients with multi-system organ failure/dysfunction, Sheath removal, Intubation/extubation.

### Vantage Point Behavioral Health- Fayetteville, AR

Geriatric and Adult Unit Staff Nurse

June 2018-June 2019

Six months on a geriatric psych unit working primarily with dementia and Alzheimer's patients. I acted as the charge nurse for second shift. I was also the medication administration and admission nurse on this fast-paced unit.
