Registered Nurse/Charge Nurse

VIP Medical. Dr Jeff Jones - Modesto, CA

November 2010 to May 2014

Responsibilities

Pre op PACU fluoscope medication management chronic pain patients . Suboxone inductin and management. Authorizations for workers comp patients medication and management

Accomplishments

Started the inductions with Suboxone and all of the follow up treatment and medication managements.

I have great respect and empathy for many of my chronic care patients and really became close to many they brought a smile to many of my days and I hope I did the same for them.
I did also learn EHR we ny had in place for about 7-8 months but it was starting to work.

Skills Used

Pain assessment 1-10 location is medication working prep for procedures accompany to procedure room
positing pt on table asst with fluoscope I'v medication for conscious sedation given per MD orders .
Monitor and d/c I'v after procedure asst with dressing Schedule next appt refill any medications needing
triplicate refills escort to car via w/c with family
Wound care after pain stimulators or pump placements remove staples or steri strips clean area re pack
re dress.

Registered Nurse (RN). Pre op PACU

Ambulatory surgery center of stockton - Stockton, CA

August 2008 to October 2010

Responsibilities

Pre op pt for out pt surgery procedures .Surgery explained instructions for after care gone over in writing
and verbal questions answered and all paper work signed. I'v placed pt has family member in waiting
area with them.

After surgery procedure monitor pt at bedside with or without airway in place .iv intact no occasions
medication given as ordered placement of bed and pillows to help with pt comfort. As Pt be comes more
alert family member my be at be side medications for pain given as ordered discharge instruction and
follow up appt given

When pt stable assist with dressing ang w/c to car with all instructions including our number. We would
call the next day

Accomplishments

I hope I was able to just keep things running smoothly on our busy days and give good pt care not just
physically but emoji ally as even minor procedures can be scary

Skills Used

Professional intake preop questions getting pt ready answering there questions and families and
monitoring PACU to ensure pt safety and we'll being. Also on busy days able to help where ever help
was needed .

Registered Nurse Charge Labor/Delivery

Dameron - Stockton, CA

June 1996 to October 2008

Responsibilities

Labor and del RN observe monitor mother and baby assist with different pain relief measures education
of. Patient and family Assess that labor is progressing at a good rate and safe for mother baby alert MM
of any changes or to get any orders that are not standing orders for pain and positioning notifying NiCU
of any Info they need to know for del

Some days it's a lot of false alarms not really contraction for labor but maybe UTI dehydration from
another illness we still monitor the baby per hospital protocol. Some days it is labor but to early and then
we must decide with the MD how to slow or stop depending on the gestational age

Accomplishments

We did all of our own C-Sections and Recoveries ourself making sure mother was stable before being transferred to her room

cares person to not only my patients but to my fellow co-workers as we work very close for long hour

Skills Used

High Risk Clinic Monday/Thursday for our diabetics hypertension LGA SGA Prior Hx of pregnancy problems

Placed on monitor for min 20 min with a reactive strip. Also did Biophysical profiles using ultrasound machine to measure different body parts to also get a better idea of growth pattern
