

RONALD JAY HERRON, RN

GOALS & ABILITIES

Seeking opportunities in an established and proven acute care system. Looking for challenges to apply my knowledge, life experiences, and skills to encourage others to excel in excellence. Improve patient outcomes through a dedication to efficiency, productivity, cost containment and team building within regulatory guidelines and hospital policies.

I combine patience, determination, and persistence to troubleshoot issues with dynamic, results-oriented problem solving. I easily understand and solve technical problems and am skilled at evaluating options and generating solutions. Team building is my pleasure.
