Work Experience

Executive Director and Director of Nursing

CLR - Brookfield, WI

November 2019 to Present

Completion of daily assignments and timely documentation in Electronic record. Variety of clients are visited daily depending on their skilled Homebound needs. Wound care is mostly what is completed on clientele. But we do manage IDDM, CHF, medication management, urological things as well as IV's and wound vacs. Operate very independently with excellent coordination and communication skills.

Visit Nurse Mar

Hometown Homecare - Brookfield, WI

Visit Nurse, I

Seasons Hospice - Milwaukee, WI

April 2013 to April 2016

was responsible for the direct nursing care of terminally ill patients. Duties included; nursing assessments, pain management, psycho social support for patients and families, patient/family education, environmental and safety monitoring, ordering DME, medication management, CNA supervision, and timely documentation in accordance with Medicare guidelines. I was also responsible for collaborating with interdisciplinary team members and the development and facilitation of

individualized plans of care. Updating RNCM's and families as required. IV sites were maintained and changed out as necessary. Including solution change out. Worked with many types of clientele including Dementia, Alz, ALS.

Director/Nurse Administrator

CRL - Milwaukee, WI

June 2012 to February 2013

As Executive Director, I was responsible for the daily management of a 97 bed Assisted Living Facility. I managed all departments including; nursing, maintenance, kitchen, activities and administration. Duties included: supervision of interdisciplinary team members, budget management, monitoring marketing trends, and overseeing the care of 70 plus residents. Also Maintained open communication with staff, residents and families and provided 24 hour availability. As Nurse Administrator I was responsible for creating and maintaining individualized care plans for each resident. Other duties included: med management, staff education, coordination of care, direct nursing care, infection control tracking, wound care, nursing assessments, budget management and supervision of nursing staff.

Visit Nurse, I

Seasons Hospice - Milwaukee, WI

September 2008 to June 2012

was responsible for the direct nursing care of terminally ill patients. Duties included; nursing assessments, pain management, psycho social support for patients and families, patient/family education, environmental and safety monitoring, ordering DME, medication management, CNA supervision, and timely documentation in accordance with Medicare guidelines. I was also responsible for collaborating with interdisciplinary team members and the development and facilitation of individualized plans of care.

Spinal Cord Rehab Nurse

Zablocki Veteran's Hospital - Milwaukee, WI

May 2001 to September 2008

As a Rehab nurse, I was responsible for the direct nursing care of patients with spinal cord injuries. Duties included: wound care, med management, pain management, IV care, bowel management, dietary assessments and teaching specific restorative techniques to individual patients and families. Also provided education on durable medical equipment specifically beneficial to the spinal cord injury population. Collaborated with all disciplines to provide safe discharge planning. Education and Training.
