## Certifications and Licenses

---

### **LPN**

## Additional Information

---

### Qualifications

- Medication Certified/CNA
- LPN Graduate May 2011
- CPR Certified March 2009

### Skills:

October 2010- December 2010 Completed LPN practice during clinical at Rennes healthcare in DePere, WI. We were involved in client cares, passing medications and also insulin injections.

February 2001-March 2011 Completed Clinical practice at Dermatology Associates in Neenah. This required rooming patient new and current. This also included shots, lidocane injections to numb patients for biopsies, TB tests and much more. We also had to go in rooms with the doctor and note take for them as they discussed treatment options. We faxed prescriptions to the pharmacy and also handled giving out samples and reviewing information with the patient. This was a great stepping stone for experience as a clinical nurse.
