[Reason for leaving]; Full time opportunity at Tomahawk Paper Mill

Education

- [Gogebic Community College], [Ironwood], [MI] [Associate Degree LPN Nursing]
- [Nicolet Technical College], [Rhineland], [WI] [Many Certificates / Courses in health care / EMS field]

Leadership / Communication

Once a Quiet / Shy guy I have gained a vast repertoire of Critical Thinking, Leadership, and Communication skills throughout my vast years working in healthcare system, for instance; Orchestrating Emergency responders at motor vehicle accident, or natural disaster like a tornado that struck our area, to leading a group discussion of psych patients in self-worth / self-care / goal setting /

time management etc... to a one-on-one with a teen who's contemplating suicide because of being Bullied for his sexual orientation or a teen who has never had experience with death suddenly loses a family member, best friend, and a pet all in less than a week
