Hi, my name is Alyssa, I have been working in the health care feild for a little over 8years. I started in home care, transitioned into assisted living recived my CNA and started working in nursing homes. I get much satisfaction helping others and being a caring friend. As a child I spent most of my time in many nursing homes and assited livings across Wisconsin watching both my grandmother and mother care and be a passiante friend for the neighbors in the homes. I grew a compassion and from that moment forward I knew what my life was destined to do and follow the path where my heart was at. I feel my years of experience make it so I can handle any situation that comes my way with solid decision making. I have been helping patients with different physical and mental disabilities.
