Acadia Healthcare Facilities - Milwaukee, WI

March 2017 to April 2018

Addiction management for opiate dependent clients, I manage the Methadone Dispensing following regulations of the state and adhering to DEA regulations making sure the medical staff follows and adheres to the above I enjoy my job but i need something on the side PRN had to move back to milwaukee because granddaughter is sick

### **RN Hospice Nurse**

North Delta Hospice - Southaven, MS

April 2015 to January 2017

I currently work for a Inpatient Hospice unit facility holds 23 patients I have Taken care of Patients with every possible Dx in Hospice. The challenge is helping the Families with their transition as well as helping the patient get through their transition as smooth and pain free as possible. I think this is my calling have done different types of nursing non have been as rewarding as Hospice. Planning on moving back to Milwaukee the middle of the month, looking for Employment in the field of Hospice.

### **Dialysis Nurse**

Fresenius Medical Care - Memphis, TN

June 2015 to June 2016

Responsibilities

Work in the hospital doing dialysis on patients that are in ICU or in the dialysis unit

Accomplishments

I am always a patient advocate first no matter what job I do. Dialysis is a way of life for people that have kidney failure either chronic or acute.

#### Skills Used

Nursing process is the ultimate skill for any nursing job. A nurse must assess, diagnose, plan, implement, and evaluate her plan and if not working then she must repeat the last three. Besides that dialysis nurses clean patient's blood from the toxins, next removal of fluid when patients are stable enough.
