LICENSURE & CERTIFICATIONS

RN | Registered Nurse
Wisconsin
Current

PROFESSIONAL PROFILE

- Authentic and knowledgeable registered nurse with seven years of RN experience in the neonatal intensive care (NICU), ambulatory care, and urgent care
- Holds 13 years of emergency medicine experience as a critical care paramedic in a level 2 trauma emergency department, rotor wing transport (HEMS), and high-volume 911-service
- Dedicated to departmental and system-wide quality improvement, as evidenced by patient satisfaction scores transforming from among the lowest in the system to the best, becoming a resource for other sites by modeling care improvements, and collaboration with the CEO for system-wide patient advocacy projects
- Passionate about integrative primary care; empowering patients to connect to self, earth, & others; balance energy centers within the body & work towards a spiritually fulfilling lifestyle that supports wellness & alleviates root causes of disease as evidenced by collaborations with CSO & System Director of Integrative Health to deliver an alternative model of care that increases access to integrative health resources, attracts new clientele, captures downstream revenue, and strives to meet the T25 organizational goal of whole person care.

URGENT CARE REGISTERED NURSE

Advocate Aurora Healthcare: Aurora Sheboygan Clinic; Sheboygan, WI & Plymouth, WI;
05/2018-06/2021

- Charges over staff, resources, and manages department flow; average 100 visits/day
- Serves as the primary vaccine coordinator, STEMI review & mgmt of med inventory
- Suggests and initiates departmental improvement, including integrating RN triage into department workflow to quickly identify concerns requiring immediate care, providing phlebotomy services at point of care, and streamlining the patient process with improved wait times, throughput, and departmental satisfaction scores as a result.
- Adapt & apply COVID segregation, triage, guidelines and support multiple different work flows related to COVID inquiry, testing, and follow-up during a pandemic associated with global shortages of supplies
- Communicates with organization's CEO to address systemic racism, suggesting universal meconium drug testing on all infants
- Develops system-wide quality improvement projects, like implementing a child maltreatment screening into the EMR, providing staff education to identify sentinel injuries and closed head injuries, dictating standard documentation of objective child injury findings, cultivating order-sets that recommend appropriate diagnostic testing per AAP recommendations, and creating smart-set phrases to include resources related to maltreatment risk factors
- Provided 1:1 consultation to the director of integrative care regarding the T-25 system goal of whole person care.

March 15, 2022

Dear friends,

The depth and power of interactions with people from all walks of life, the seemingly unexplainable circumstances, and the incredible things I have seen are what characterize my passion for wellness. With a 20 year history in EMS, critical care flight transport, NICU, and varied ambulatory RN roles, I can still say that I treasure the opportunity to serve others through the nursing profession. It is an amazing gift to advocate for the moral & ethical treatment of others and I hope to continue cultivating and manifesting positive change within healthcare.

Though well-experienced in the medical field, I am continuing to learn everyday and grow not only as a nursing professional, but also as a lightworker & spiritual visionary. My background is in emergency medicine, my heart rejoiced in the neonatal intensive care unit, and I trust that my higher self will lead future change as a leader that inspires positive change. I have a solid foundation of critical thinking, assessment skills, and leadership from my experiences within EMS, balanced with a deep desire to connect with others at a humanistic level to meet them where they are and lift them up towards a more fulfilling life experience focused on whole person wellness. You will find that I am passionate and dedicated, but also down-to-earth and relatable. I value empathy, a positive attitude, morals, and strength of character.

In love and light,

Rebecca Nedden, RMT, BSN, RN
